- React.JS
- Swift
- C# and Unity
- Java and JavaScript
- Python
- Team Building / Leadership
- Verbal/Written Communications
- Agile/Scrum Management
- Quick Learner
- Drives Results
- Team Player

PROFESSIONAL EXPERIENCE

Bell Textron Inc.

Software Engineering Intern

Arlington, TX

September 2022–Present

- **Developed and developing apps** for both iOS and Android using Swift and Java to **reduce loss of time due** to insufficient access to proper data.
- Developed backend tools using Firebase, MySQL, and Back4App with web interface solutions using HTML, JavaScript, CSS and React.JS
- Created and maintained a computer management tool for accessing the latest application builds to all necessary devices.
- Work closely with other teams, managing iOS and Android Applications for over **25+ Full Flight Simulators** with thousands of documents, including keeping up to date and creating a document retention system.

Professional Development

Fort Worth, TX

May 2022–September 2022

- Worked on developing my professional communication and presentation skills.
- Designed my E-Portfolio: fadyfaheem.com, and started projects on my GitHub: [FadyFaheem](#)
- Programmed and designed a **Raspberry Pi Powered Vending Machine** which was donated to St. Meena Orthodox Church. (Project listed on my website!)

Edikt Studios

Unity Game Developer Intern

Keller, TX

August 2019–Present

- Created and developed Unity Games in a 2D, 3D, and VR format with the latest technologies
- Designed and **soon to release** a fully built Unity game from Edikt Studios on Steam.
