- *Java and JavaScript*
- *Python*
- *Team Building / Leadership*
- *Verbal/Written Communications*

- *Agile/Scrum Management*
- *Quick Learner*
- *Drives Results*
- *Team Player*

PROFESSIONAL EXPERIENCE

Bell Textron Inc.   **Arlington, TX**
Software Engineering Intern   *September 2022–Present*

- **Developed and developing apps** for both iOS and Android using Swift and Java to **reduce loss of time due** to insufficient access to proper data.
- Developed backend tools using Firebase, MySQL, and Back4App with web interface solutions using HTML, JavaScript, CSS and React.JS
- Created and maintained a computer management tool for accessing the latest application builds to all necessary devices.
- Work closely with other teams, managing iOS and Android Applications for over **25+ Full Flight Simulators** with thousands of documents, including keeping up to date and creating a document retention system.

Professional Development   **Fort Worth, TX**
                                                                                     May 2022–September 2022

- Developed professional communication and presentation skills.
- Designed E-Portfolio: fadyfaheem.com, and began projects on my GitHub: FadyFaheem
- Programmed and designed a **Raspberry Pi Powered Vending Machine,** which has been donated to St. Meena Orthodox Church. (Project listed on my website!)

Edikt Studios   **Keller, TX**
Unity Game Developer Intern   *August 2019–Present*

- Created and developed Unity Games in a 2D, 3D, and VR format with the latest technologies
- Designed and **soon to release** a fully built Unity game from Edikt Studios on Steam.

EDUCATION

TIMBERCREEK HIGHSCHOOL   **Fort Worth, TX**
Certification in Computer Science and Highschool Diploma,   *May 2023*
(GPA: 3.7/4.0)
